Hi Olha,

Here are the approved EP courses that will satisfy CS requirements. If a course you're interested in is not on this list, you will need to get permission to have it count as a CS course.

Thanks,  
Revelie

|         |  |              |
|---------|--|--------------|
| 605.641 | Principles of Database Systems           | Software     |
| 605.601 | Foundations of Software Engineering      | Software     |
| 605.611 | Foundations of Computer Architecture     | Systems      |
| 605.620 | Algorithms for Bioinformatics            | Applications |
| 605.625 | Probabilistic Graphical Models           | Reasoning    |
| 605.635 | Cloud Computing                          | Systems      |
| 605.647 | Neural Networks                          | Reasoning    |
| 605.704 | Object-Oriented Analysis and Design      | Software     |
| 605.724 | Applied Game Theory                      | Theory       |
| 605.728 | Quantum Computation                      | Theory       |
| 605.741 | Large-Scale Database Systems             | Systems      |
| 605.746 | Advanced Machine Learning                | Reasoning    |
| 605.751 | Algorithms for Structural Bioinformatics | Applications |
| 605.612 | Operating Systems                        | Systems      |
| 605.621 | Foundations of Algorithms                | Theory       |
| 605.772 | Network and Security Management          | Software     |
| 605.645 | Artificial Intelligence                  | Reasoning    |
| 605.649 | Intro to Machine Learning                | Reasoning    |

**Subject:** Re: Advisor Alert on SIS

Professor Taylor,

Please, see attached my revised plan. I chose Object-Oriented Software Engineering. The only concern is that the time of class conflicts with the class that I TA for, but I could not find any other class that I was interested in.

Please, let me know if you have any suggestions!

Thank you!

Olga

How long will it take you to send us a revised plan? I will release your hold for the purpose you indicate.

RHT

Revelie: Your input is really important to us. I am skeptical about 635.683 and 553.636 as CS courses,

Sure! In the meantime, I was wondering if you could lift the hold so that I can register for Human Computer interaction course since only 2 open spots left. I'm a little worried that I will not get in. I will not register for any other courses until I get your approval!

I am concerned that your proposed "CS" courses for Semester 3 may not be sufficiently "CS". I am cc'ing Ms. Niles to get her impression. I will wait to clear your hold until we get a response and (maybe) a different plan.

Prof. Taylor

Revelie: What do you think about 635,683 and 553.636 as CS courses,

**Subject:** Re: Advisor Alert on SIS

Prof. Taylor,

Please, see attached my updated plan. I am planning to take 2 courses from CS department and 1 EP course from CS department as well.

I don't have any other questions!

Thank you,

Olga

**Subject:** Re: Advisor Alert on SIS

What is the specific problem that you are having? I suspect that it is simply an advising hold. You are supposed to meet with your advisor before registering each semester. We can do this via email, however, and arrange a face-to-face e-meeting later. Can you just respond to the following bullet points:

- Do you have any specific questions that need answering?
  - If so, what are they?
- Do you propose to make any changes in the academic plan you sent last February?
  - If so, please send a new one
- Is there some other thing that you need to discuss before registering?

If you really need to meet, then work with Ashley to find a 15 minute slot in the next few days. In any case, please respond to my questions before meeting.

Prof. Taylor

**Subject:** Advisor Alert on SIS

Hi Professor Taylor,

Hope you are doing well. I was trying to enroll in my technical courses for the fall of 2021 but I have an advisory alert on my SIS account that does not let me register.

Could you please let me know if I can fix it somehow on my end or what are the requirements to release this hold on adding new courses?

Thank you!
